

# THE ANSWER TO YOUR HEAVY HAULING PROBLEM

## **BALDWIN 2000-hp., 6-MOTOR TRANSFER LOCOMOTIVE**

A rugged diesel-electric that is making a fine record for efficiency and economy in heavy transfer service.

Powered by two Baldwin 1000-hp., 6 cylinder supercharged diesel engines.

Six heavy-duty motors—one on each axle—giving highest tractive effort now obtainable in any single-unit diesel-electric switching or transfer locomotive.

Permanent motor hook-up—no transition required during acceleration.

Air throttle for smooth operation and simplified multiple unit control.

Dual operators controls in central cab.
