

A NEW PAGE

**IN CANADIAN
RAILROAD
HISTORY**

Arrival of the first Fairbanks-Morse Consolidation Locomotive at Kingston signalled the start of a new page in Canadian railroad history.

New in design . . . new in performance . . . Consolidation Locomotives powered by Fairbanks-Morse Opposed-Piston Diesel Engines have already established new standards of efficiency, economy and dependable service. Fairbanks, Morse & Co., Chicago 5, Illinois.

Opposed-Piston Powered Consolidation Locomotives are made in Canada by the Canadian Locomotive Co., Ltd.

FAIRBANKS-MORSE.
